

UNITED STATES AIR FORCE STATISTICAL DIGEST

FISCAL YEAR 2013

**PREPARED BY
DEPUTY ASSISTANT SECRETARY
(COST AND ECONOMICS)
ASSISTANT SECRETARY OF THE AIR FORCE
(FINANCIAL MANAGEMENT AND COMPTROLLER OF THE AIR FORCE)
SAF/FMC, 1130 AIR FORCE PENTAGON,
WASHINGTON, DISTRICT OF COLUMBIA 20330-1130**

Foreword

The Air Force publishes the United States Air Force Statistical Digest annually. It is the longest running continuing publication in the Air Force having first appeared in 1948, one year after the formation of the Air Force as a separate service. Individuals requiring a historical description of Air Force resources, organizations, and activities find each publication an invaluable addition to their reference sources.

This FY13 edition is the first release as an Excel document rather than a printable PDF, improving usability by simplifying data extraction. This document reaches a wider audience, as anyone with AF Portal access can reach the file. The overall organization, flow, and content of this Digest remains consistent with historical precedence. Please note that comparable data for identical time periods in this year's edition may differ from previous editions due to updated actuals and a thorough revisit to cited sources.

We welcome your comments and suggestions for improving future issues. Suggested new topics and/or different data arrays will be seriously considered. This is your publication – we want to make it as useful as possible. Mail your suggestions to SAF/FMC, 1130 Air Force Pentagon, Washington DC 20330-1130 or email them to usaf.pentagon.saf-fm.mbx.saf-fmce-workflow@mail.mil.

For more information about the office and activities of the Assistant Secretary of the Air Force (Financial Management and Comptroller) and subordinate offices, log on to the SAF/FM portion of the AF portal. This website is also an excellent source of information for the entire spectrum of financial management activities.

A handwritten signature in black ink, reading "Kathy L. Watern". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

FOOTNOTES:

¹ Totals may not add due to rounding.

² Excludes nonchargeable personnel.

³ Does not include Training/Pay Categories J, K, and L.

⁴ Excludes retired Air Force Reserve.

⁵ This chart will differ from D-23 due to D-23 including several other non-pay and retired categories.

Additionally, this chart has Air National Guard data included while D-23 deals with pure reservists.

⁶ AFRES and ANG Technicians numbers are in parenthesis to avoid double counting.

FOOTNOTES:

¹ Totals will differ from data on D-17 and D-18. This counts all personnel who are Pilots, Combat System Officers, and Air Battle Managers regardless of whether they are still flying or eligible to collect bonuses. In addition, it includes those still in training. D-17 and D-18 tend to portray a sub-set of this data. Finally, this chart does not include General Officers whereas others do.

FOOTNOTES:

¹ The Consumer Price Index (CPI) is a measure of the average change in the prices paid by urban consumers for a fixed market basket of goods and services. The CPI is calculated monthly for two population groups, one consisting only of urban households whose primary source of income is derived from the employment of wage earners and clerical workers (CPI-W), and the other consisting of all urban households (CPI-U). The all-urban consumer index (CPI-U), introduced in 1978, is representative of the 1982-84 buying habits of about 80 percent of the noninstitutional population of the United States at that

² Major groups include energy, food, shelter, apparel and upkeep, transportation, medical care, fuel oil, electricity, utility (piped) gas, telephone services, and all commodities.
